BEAT THE PRO & LONG DRIVE HOLE 1

Hole 1 is where our beat the pro and long drive activity will take place

Hole 1 Pro Tip:

Tight opening hole that allows the golfer a drive or fairway wood off the tee. This fairway is important to hit, you want to favor the right side as sand bunkers are on both sides of the fairway, this will allow a short iron for a 2nd to a small green which slopes back to front and a good chance for birdie.

CLOSE TO PIN HOLE 4

Hole 4 is where our close to pin activity will take place players have a chance to win prizes for getting the closets.

Hole 4 Pro Tip:

Wonderful par 3 that is a little uphill so allowing ½ club more will help you hit to this very undulating green. This hole is a mid to long iron so choosing the right club will be important, walking away with a par on this hole will give you confidence for the next hole.

HOLE
13

HOLE IN ONE & CLOSE TO PIN HOLE 13

Hole 13 is the course highlight and where the hole in one will take place. There will also be a close to pin activity at this hole.

Hole 13 Pro Tip:

This par 3 will test you. The tee shot must carry water and bunker on the front of the green. You will probably be hitting a mid to long iron to this big green with lots of room, picking enough club and getting it pin high will allow you a good chance at birdie, commit to hitting the correct club for this tee shot.

CLOSE TO PIN HOLE 16

Hole 16 is where our other close to pin activity will take place players have a chance to win prizes for getting the closets.

Hole 16 Pro Tip:

A good uphill multi-leveled par 3. Any shot too far out to the right will most likely find water. Hitting $\frac{1}{2}$ club more with a mid iron to the correct level will allow you a very good chance for birdie.
